JULIEN BENEK

To Whom it may concern

My name is julien Benek, I'm from Mission B.C. and I very much enjoy racing my dirt bike and all the things invovled with it.

Since I was 3 years old my entire life has been devoted to becoming a better rider/racer.

I am currently 19 years old and one of few Candians who are racing at a top tier level in the United states.

Hours upon hours of training have gone Into my program this year and I feel very confident in myself, for the upcoming 2024 SMX races held by the AMA.

If you are Interested, I would love to represent your company on my motorcycle while I travel across America to pursue my dream of becoming a factory supported rider.

My goal for this SMX season is to make main events at all venues, I attend. Most are located in Southern California. Only the Top 20 riders in the world will qualify for these main events.

I qualified for a main event last year and was noticing steady progression throughout the entire seires. I believe this year can battle for the top10-15 positions in these main events. All races are covered on major TV Networks such as NBC, USA Network, Peacock, and the SMX video pass supplied by the race promoter with around 400-600,000 viewrs each race. Not including the 60,000 people watching in the stadium.

I hope you see me as a serious candidate as a representative for your company. I feel confident that I can help both parties in our strive for success. Thank you for taking the time to look at my resume and I look forward to hearing back from you.

Sincerely, Julien Benek

How I support riders Canada wide

The photo to the left is a track I built for Jonah Dueck, who races the intermidiate class. He said he enjoys the track lots and is overall very happy with the finish result.

His father, Dan Dueck hired me to build his son this track so they can make the next step up and compete at a higher level.

Dan Dueck

This next photo is a track that I built for a 65cc rider that lives 10 minutes from my house. The rider is a 10 year old and has trouble jumping big gaps. This track is slowly helping him overcome the fear of jumping from one pile of dirt to another instead of one big pile with less consequence.

His father, Ernesto Stivalet also hired me to build this track. This year I also built him another track free of charge.

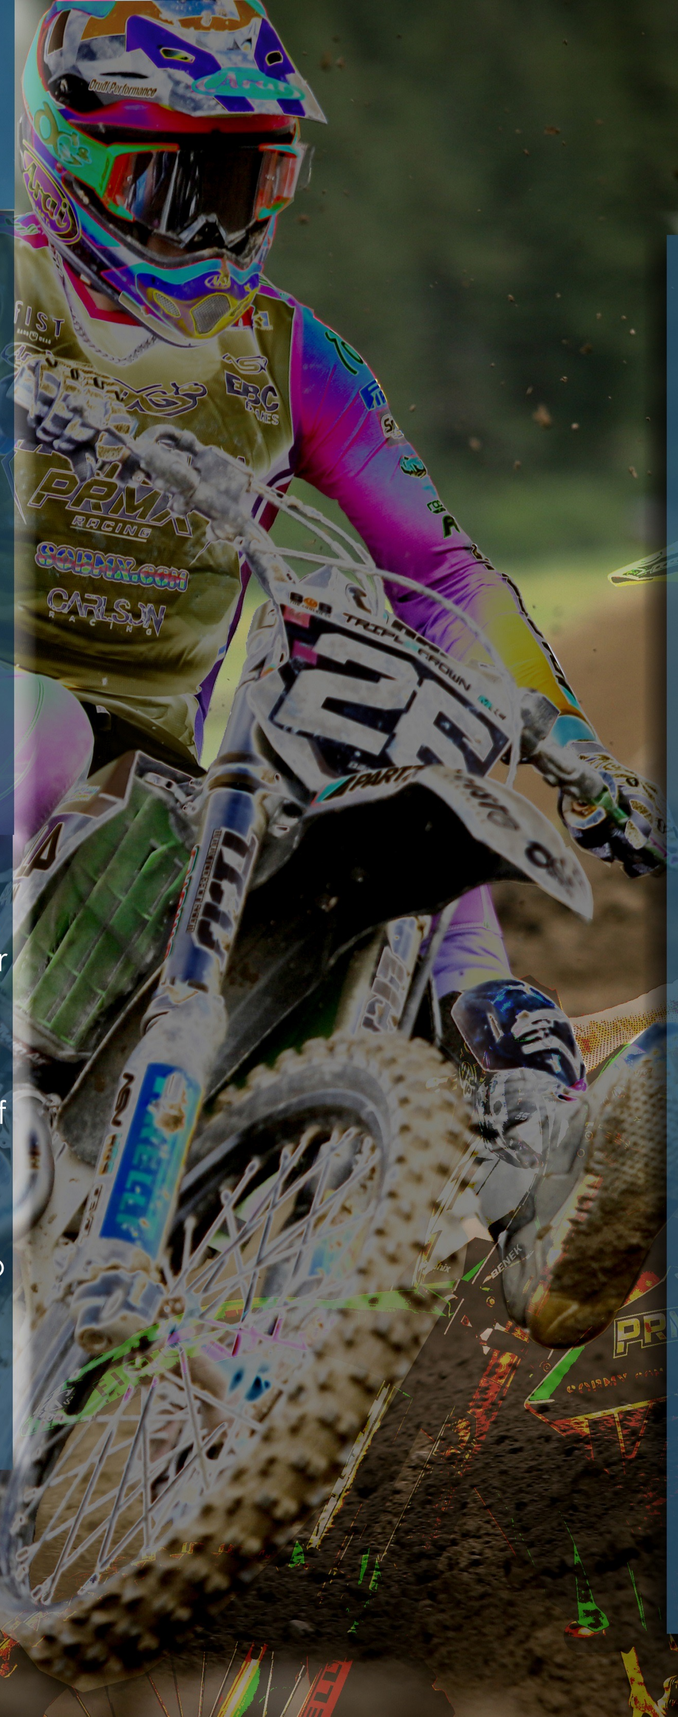
Ernseto Stivalet



I also like to help riders in learning proper teachnique and form on the bike. I have spent quite a lot of time teaching riders the past few years I have been pro.

During Canadian nationals I teach at Sand Del Lee National the day after the pro's race. There is regularly about 20 riders who attend the school tought by myself and a few other high caliber pro's.

When I am home for the few months I get off of racing i have private riding lessons at my personal track in my backyard.

everyone including the parents have the opportunity to ask me any questions they have rgarding what it takes to become a full time pro.

100% of the riders I teach learn something everytime they train with me. wether it's when to brake coming into corners or, how to properly hang onto the motorcycle.
