SEBASTIAN CARRILLO 615

SPONSORSHIP PROPOSAL

YOUNG ATHLETE SUPPORT

Prepared By:
Sebastian Carrillo

2024

ABOUT ME

Hello, motocross enthusiasts! I'm **Sebastian Carrillo #615**, a dedicated young rider with a burning passion for the thrilling world of motocross. From the roar of the engines to the adrenaline-pumping jumps, motocross is not just a sport for me; it's a way of life.

I'm 10 years old and y ride a KTM 65cc SX 2022.

From the first exhilarating moment I swung my leg over a dirt bike, a vivid dream ignited within me – the dream of becoming a professional motocross rider. The symphony of roaring engines, the rush of wind against my helmet, and the adrenaline-fueled jumps have woven themselves into the fabric of my aspirations. Motocross isn't just a sport for me; it's an obsession, a calling that resonates with the core of my being. As I navigate each twist and turn on the track, my dream takes shape with every acceleration and every graceful flight over the jumps.

This dream is not merely about conquering races and podium finishes; it encompasses the essence of a lifestyle that embodies resilience, dedication, and an unwavering love for the thrill of the ride. The vision of standing shoulder to shoulder with the best in the world, competing on the grand stage of professional motocross, fuels my every training session and motivates me to push beyond my limits.

MY VISION 2024

As I envision the year 2024, my aspirations unfold like a vivid tapestry of personal and professional growth. In the realm of motocross, I see myself reaching new heights, honing my skills to perfection, and standing triumphantly on podiums that once seemed distant. The year 2024 marks a chapter of relentless dedication, where every twist of the throttle propels me closer to the realization of my dream – becoming a recognized name in the professional motocross circuit.

Beyond the racetrack, I envision fostering a stronger connection with the motocross community, sharing experiences, and inspiring the next generation of riders. Whether through social media platforms, community events, or mentorship programs, I aim to contribute to the camaraderie and passion that define the motocross world.

On a personal level, 2024 is a year of holistic growth. I see myself cultivating mental resilience, maintaining peak physical condition, and striking a harmonious balance between my love for motocross and the other facets of my life. It's a year where I embrace challenges as opportunities, celebrate victories large and small, and continuously evolve as both a rider and an individual.

As the engines roar in the races of 2024, I envision each twist of the track as a step forward, each jump as a leap toward my goals. The vision for this year is not just about crossing finish lines but embracing the journey, savoring the camaraderie, and leaving an indelible mark on the motocross landscape. In 2024, my vision is a roadmap guiding me toward the pinnacle of my motocross career and a year of profound personal and professional fulfillment.

MY BIGGEST CHALLANGE

Navigating the thrilling world of motocross comes with its fair share of financial challenges, particularly when it comes to covering the extensive training and maintenance expenses. The commitment to excellence in this high-octane sport requires continuous investment in training facilities, specialized coaching, and state-of-the-art equipment. These financial commitments extend beyond the track, encompassing the meticulous maintenance of the bike, ensuring peak performance in every race. As a dedicated rider, the financial strain is felt keenly, with the need for frequent upgrades, protective gear, and travel expenses to competitions weighing on the budget. Despite the passion that propels me forward, these financial challenges become formidable obstacles to overcome.

Seeking sponsorships, exploring partnerships, and leveraging community support become not just strategic moves but essential lifelines to sustain the pursuit of motocross excellence. As I confront these financial hurdles, I am reminded that resilience and determination are not only tested on the track but also in the relentless pursuit of resources that keep the dream alive and the wheels turning.

BE PART OF MY MY TEAM

I am seeking your support for my team in 2024. In order to compete at the national level, I anticipate training costs of more than $350 weekly, maintenance costs of more than $250 weekly, and additional expenses related to travel and race registration fees.

Currently, my parents are my sole supporters, but I'm seeking additional support to reach new heights in my athletic pursuits.

I believe that in order to achieve our dreams, we must be open to giving and receiving assistance along the way.

I have prepared several sponsorship packages that I believe could be a good fit for you. Please refer to the next page for further details.
